## Audio Production

A full-service audio production house; Headland Studios can take care of your whole radio advertising campaign from concept creation through to distribution of the finished ads.

Our experienced team will bring your radio script to life. From concepts and scripts which relay your message and reflect your brand, to the perfect voice, music and sound effects. Plus, bespoke music or a sung jingle.

## Studio Hire

Headland Studios is conveniently located in the centre of Leeds, just two minutes walk from the train station. Our headquarters includes four studios, specifically designed by our team for your requirements.

Studio 4 is the main studio and is large enough to allow up to six people to contribute to a recording session, with room for others to watch and listen from the comfort of our studio sofa.

If you need to record a single voice session, try one of our other three smaller studios. They're built to the same high standards and are suitable for both live broadcasting and voice-over sessions with one to two people.

All of our studios are appropriate for live broadcasting; contributing remotely to radio programmes or other audio sessions; or for recording voiceovers.

## Studio Hire Rates

Studio 4 – Multi-person studio, £75 per half hour.

Studios 1, 2, 3 - Voice & broadcast, £35 per half hour.

ISDN to all studios, £20 per half hour.
